* Pre-populated from 2007 MSIS Data or most recent MSIS data available trended forward to 2007. If more recent enrollment data are available, the Lewin calculator allows users to enter those data instead. Users can also enter their own data on Medicaid cost-per-child (which affects the size of performance bonus payments). More information about the calculator and the data sources it relies on are available online at <http://www.lewin.com/MedicaidBonusCalculator/>.
